

Find the
clue boxes,
and win
prizes!

FIRST® Innovation Scavenger Hunt

Find any two of
the four **Innovation
Scavenger Hunt
Clue Boxes:**

IDENTIFY
DESIGN

BRAINSTORM
BUILD/TEST

FIRST® teams use the engineering design process to solve problems, build, code, invent, and more. Whether you are building an attachment to make your robot score a goal, improving a design from last year, collaborating with a teammate on a new idea, building a model, or inventing something to help reduce waste,

YOU ARE INNOVATING.

Explore what's inside the clue box. When you've explored two boxes, stop by the FIRST Innovation area, outside of the FIRST Innovation Faire to COLLABORATE. Let us know what you found and pick up a FIRST Championship souvenir! You will be entered into a daily drawing, and you could win our **grand prize - a \$300 FIRST Marketplace gift card!**

Additional instruction cards available at all Pit Admin locations.
