PAYING FARE TO RIDE

With a People Mover Fast Pass, place the pass in your right hand (with the black stripe facing you) and walk up to the fare gate. Swipe the pass forward as if you're pushing it through. Once the gate says "Thank You", passes can only be swiped through a station fare gate one time in a 15-minute interval. Once it has accepted your fare at that station, it will not register again at that location for the above period. You can, however use the pass at any other station.

Please remember when using tokens or U.S. coins, place them in your right hand to enter a fare gate on the left side. Listen for the beep and proceed through the turnstile.
